

We are looking for someone who is interested in a half-time school psychologist's position at White River School District beginning in the fall of 2011. The assignment would involve coordinating the early childhood program (looks good on a resume, no?). White River School District is a progressive district known for our success with student achievement via PLC and RTI. We are located in East Pierce County between Enumclaw and Sumner serving the Buckley, Wilkeson, and Bonney Lake areas. So, if you have small children at home, are looking for another half-time position, or want to supplement your retirement, we are looking for a great school psychologist to join our cohesive (and fun) team at WR. If you want to know more, please call me (Cindy Jacobsen) at (360) 829-5977.
